

## From the Patron/Director's Desk

Education is generally defined as the process of receiving or giving systematic instruction. This definition, however, is incomplete. Education is also about ethics and responsibility towards society. Today's education is quite different from that of yesteryears and will continue to evolve in the times to come. It has now become more outcome-oriented.

I extend my personal welcome to you to attend the conference, interact with our faculty and students and experience our differentiators and value-proposition for yourself!

**Prof. (Dr.) K. K. Saini**  
(Director- Principal)

## From the Chief Coordinator's Desk

The only way to do great work is to love with you do. If you have not found it yet, keep looking, don't settle. Knowledge and character make a student pleased with himself and a pleased student pleases society. As well as we train and place our students, we are proud our contribution to society.

**Anjali Bajaj**  
TPO

## From the Coordinator's Desk

Every engineer is a genius. But if you judge a pilot by its ability to swim, he will live his whole life believing that he is lamebrain. It simply means each person is different and we should appreciate uniqueness. Let's come together in building a strong nation by our joint efforts.

**Anita Kuchhal**  
(Asst. Prof.)

## About the conference

Our conference aims for preparing students for the Global Workplace, acknowledging that placements can play a key role in supporting students to work in multinational organizations both within India and across the world.
