### FROM CHIEF EDITOR'S DESK

Young technocrats should have aim, vision and mission otherwise they will be directionless. This is the era of perfection & excellence. Engineers have to be goal-oriented & result-oriented otherwise it would be difficult for them to survive in this age of cut throat competition.

## EE NEWS

The department was involved in a lot of activities concerning with the annual fest. As many of our faculty members including me were directly or indirectly involved with the events of the fest. The results were declared and I am happy to report that the overall departmental result was more than 60%, which is a remarkable feat. Besides academics, the students won laurels in Nukkad Natika, bagging the first prize and several prizes were won by student in technical events of the fest. The departmental internal practicals are scheduled from 26<sup>th</sup> of April, I wish all the students phenomenal success in the upcoming university exams which are commencing on the 2<sup>nd</sup> of May.

## ECE NEWS

A workshop on Virtual labs was organized by ECE department of HCE sponsored and conducted by IIT Delhi on April 25, 2017 at CE seminar hall. This project was initiated by MHRD, under the mission of education and learning through ICT. Nodal centre coordinator was Mr. Priyanshu Tripathi. Mr. Madhwendra Nath was co-coordinator of the event. Experts from IIT Delhi delivered lecture and demo session. Many delegates from different colleges attended the workshop.

### WHY VIRTUAL LABS:

- To provide remote-access to Labs in various disciplines of Science and Engineering. These Virtual Labs would cater to students at the undergraduate level, post graduate level as well as to research scholars.
- To enthuse students to conduct experiments by arousing their curiosity. This would help them in learning basic and advanced concepts through remote experimentation.
- To provide a complete Learning Management System around the Virtual Labs where the students can avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self evaluation.

To share costly equipment and resources, which are otherwise available to limited number of users due to constraints on time and geographical distances.
