VOLUME 9 ISSUE IX

SEPTEMBER 2017

FROM CHIEF EDITOR'S DESK

Compare to last two decades job opportunities are more in 2017. But now a days engineers are lacking in communication skills and basic fundamental knowledge of their respective fields. Irrespective of specialization in any branch of engineering one has to be expert in C++, COBRA and Python because maximum jobs are software oriented. It is era of multi-task, multiprocessing and multidisciplinary in engineering.

PROF.(DR.)K.K.SAINI
Director-Principal

FROM EDITOR'S DESK

In HCE we are committed to provide good academic environment and sound technical knowledge to our students. So that they can meet the challenges of industry. Self discipline is necessary for students to achieve their goals.
